

## **A Tech Ad Sample #1**

### **Title: Automotive Technician**

#### **Position Overview**

Career wheels spinning but getting nowhere? Looking for your “Dream” Career? Put yourself in the driver’s seat, provide me with the adequate details and allow me to work for you!!! Get the Traction you deserve with me; your dedicated Career Broker!!!

With over 16 years of experience in the Automotive, Construction, Trucking Industry, from positions such as Parts, PSSR, Service Manager, Operations Manager. My clients and Candidates consider me an “SME” – Subject Matter Expert, therefore my team can assist you better having lived first hand within your Industry.

Here’s who MY INDUSTRY LEADING CLIENTS are searching for. Does this sound like you?

- Reliable, motivated and driven to deliver quality workmanship and a superior customer experience.
- Continuously looking to learn and use new skills.
- Value a strong team-based workplace.
- Flexible, patient, and calm when working with tight schedules.
- Focused on meeting goals and targets.

#### **Your duties will include:**

- Diagnose, repair and complete approved service on customer vehicles as described in work orders and the mechanical inspection form using computerized diagnostic equipment and other testing devices to diagnose and isolate vehicle problems.
- Advise customers and Associates on work performed, general vehicle condition, and future repair requirements
- Maintain mechanical service equipment on a regularly scheduled basis.
- Operate company and customer vehicles in a clean and safe manner; use proper barriers to maintain vehicle cleanliness, and ensure equipment and loads in company vehicles are safely secured for transportation.
- Support customer relationships by responding to customer inquiries.

#### **You must hold the following credentials / experience:**

- Completion of a four-year automotive service technician apprenticeship program. Interprovincial Red Seal Certification would be considered an asset.
- Strong knowledge of automotive industry and skills required to provide mechanical service to our customers.
- Commitment to providing a superior customer experience.
- Strong knowledge and appreciation for safe work environment and completion of WHIMIS and other safety courses provided by Clients.
- Demonstrated initiative in recognizing opportunities for improvement and efficiency.
- Ability to maintain a valid driver’s license and provide a satisfactory Driver’s Abstract from province of residence on an annual basis.
- Basic computer skills to successfully complete required learning and safety courses and achieve certification where required.
- Ability to consistently lift 25 kilograms.

With my Industry Leading Clients, you’d be provided with a great place to work—competitive compensation, a manager with a large support network, and the chance to learn and grow.
